An application for extension of EP 482 is currently being assessed by the Department of Mines, Industry Regulation and Safety (**DMIRS**). The permit remains valid until a decision on the application is made.

Five directions have been issued to New Standard by DMIRS to address decommissioning and rehabilitation works on permits EP 450, EP 451, EP 456 and EP 481. Two further well sites on EP 417 have yet to be rehabilitated following drilling activities undertaken by New Standard. The Company acknowledges the delay in completing the rehabilitation of the historic exploration activities and will continue to work through this process with DMIRS. Subject to funding, the Company is planning to meet its rehabilitation obligations as soon as practical.
